

You can offer parishioners a version of the beautiful custom card we create for you to send as their own Christmas cards this year.

Let your parishioners send out a beautiful card that celebrates the parish as well as Christmas this year.

Using your custom-designed parish Christmas card layout we remove the parish schedule, message, and names – leaving just the Christmas verse on the inside.

The cover remains exactly the same as the parish card including the parish info on the back cover.

Many parishes use these as a great fundraising opportunity – by selling the cards in packages or individually, with prices from \$1 to over \$2 each (depending on quantity). 1,000 cards can easily sell for \$1,500-2,000; 2,500 cards can become \$3,750 to \$5,000. The cards can be offered to parishioners as a service, to raise money for your parish groups, or to offset Christmas card mailing costs. Plus it allows your parishioners to share your card with their friends and loved ones, too.

By running these cards in conjunction with your parish card, we can offer you a fantastic price that allows you to offer them to your parishioners at a great price as well, including blank envelopes.
